

## QUALITY AND ENVIRONMENT POLICY

INTESIS SOFTWARE, S.L. is a company founded in 2000, we design, manufacture and market advanced and innovative solutions enabling a higher level in home & building automation, contributing this way, with technology, to increase comfort of people, energy efficiency and thus contributing to a more rational use of the earth's limited resources.

We do all this through a wide range of products resulting from a true vocation and a continued investment in R & D, based on a highly qualified team, and conducting all company's activities trying to be always respectful with the environment as much as possible.

This integrated policy of quality and environment is intended to serve as a framework for the implementation of the integrated management system for the establishment and revision of the objectives and goals on quality and environment.

The organization has established a series of commitments and objectives on which it bases its Integrated Management System:

- **Objectives:**

- Becoming a trusted supplier and a reference in this sector, worldwide.
- Continuously develop new products and services that meet market gaps in this sector, in order to make them indispensable, intended for both uses professional and private.
- Raise constant and consistent loyalty policies that reinforce our core values of product quality, innovation and excellence in service, with the main objective of obtaining our customers' full satisfaction.

- **Commitment with:**

- The quality, based on a quality control of 100% of supplied products.
- The business ethics and the everyday effort to improve our work, always taking into account the environmental impacts associated within our activities.
- The prevention of pollution associated to our processes.
- Compliance with applicable legal requirements and others related to environmental issues, as well as with the requirements of the reference standards being implanted.
- Continuous improvement of the effectiveness of implemented Integrated Management System, which adapts to daily changes in the organization.

In order that all staff of INTESIS SOFTWARE, S.L. can become directly involved in the Integrated Management System, they are informed of this Quality and Environmental Policy for its knowledge and application. It is also communicated to dealers that are part of the team of the organization, and who work on their behalf.

This policy is reviewed for its continuous suitability for the possible changes that may arise in the working methodology and that can influence the management system, and is available to the public upon request.
